

Barriera Antipanico – modulo standard
Crowd Barrier – Standard module

TECHNICAL DATA

Material	Aluminium alloy (Anticorodal)
Open Barrier dimensions	100 x 125 x (H)120 cm
Closed Barrier dimensions	100 x 125 x (H)10 cm
Step service dimensions	30 x 47 cm H=50 cm
Weight	38 kg

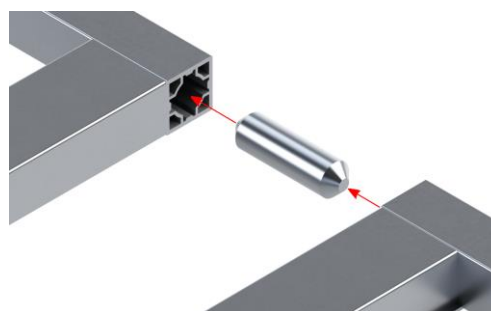

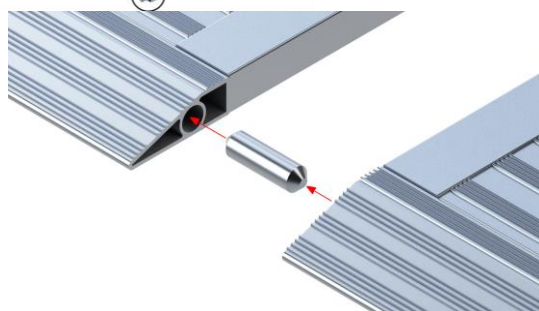

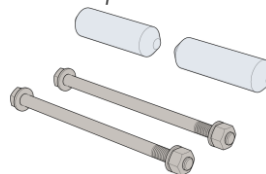

Barriera Antipanico – modulo standard
Crowd Barrier – Standard module

CARATTERISTICHE / FEATURES

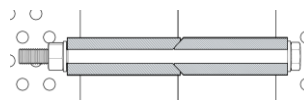

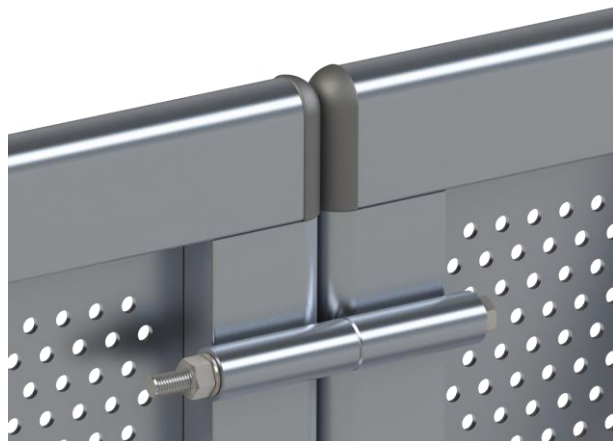

Connessione facile e sicura tra le barriere: Il kit di connessione è composto da due bulloni e due spinotti.

Easy and safe connection between the barriers: The connection kit consists of two bolts and two pins.

I bordi arrotondati e i tappi in plastica alle estremità del corrimano, uniti alla speciale connessione superiore autocentrante tra le barriere (Tipo maschio-femmina), rendono le barriere Efesto sicure e confortevoli.

The rounded edges and the plastic caps on the ends of the handrail, combined with the special self-centering upper connection between the barriers (male-female type), make barriers Efesto safe and comfortable.

Ampia pedana antiscivolo per una maggiore stabilità.

Extended anti-skid footboard for a better stability.
