HOME COMPANY PRODUCTS CONTACTS SUPPORT

EFESTO at Prolight + Sound Frankfurt 2017 *We sincerely thank all visitors!*

EFESTO to its third time at international Prologht + Sound 2017 confirmations collects and consolidates achievements.
Many thanks for your confidence and your interest at the new products.

We have spoken with many of you during the event / show, we gathered your opinions and showed "our world of true solutions " evolving and diversifying.

- Undisputed protagonist of the international show was **AstroTower**, new concept of tower; the perfect balance of cost, performance and handling.
- Aluminium crowd barriers with exclusive Fingers Save system renew the confirmations of biggest solution.
- **FreedomFast**, compact support for Led screen with two possibilities of applications : self-supporting and hanging support.
- **BETA stage**, in white painted version opens new and elegant prospects of applications with its identity as a " modular platform stage without play and deflection because this is welded!"

Efesto products are designed, manufactured and packed in **Italy**.
Italian style, made of quality and reliability, imagination and originality of design, durability and safety is the connotative element of the EFESTO creations and solutions.

Our strength is in your confirmations!

EFESTO warmly thanks and stronger affirms its commitment of professionalism and expertise as manufacturer offering concrete solutions and reliable.
