## SOLID, STABLE AND STRONG!

The professional ladder straight large version

**Persèfone** is the ladder of support straight large version used in professional environments.

The large structuring of the ladder and large steps (83 mm) give the operator greater job stability and improved freedom of movement.

**Persèfone** is the ladder **ideal for working in small spaces** as small houses, lofts, shops, warehouses, box or other environments where it is not possible to use tripod ladders.

And also it does **not create encumbrance**, in fact, it is easy to store in small space.

## AVAILABLE IN DIFFERENT SIZES

PERSÈFONE is available in different heights >> [More informaztions](#)
