Efesto at Prolight + Sound 2018

We sincerely thank all visitors!

It has just concluded at Frankfurt the **Prolight + Sound 2018** fair for entertainment and entertainment technologies. Also this year, with visitors coming from **144 different countries**, the **Prolight + Sound** confirms itself as the reference pole of the international market.

The **Prolight + Sound 2018** was a very successful international event for **Efesto**. A special thanks goes to the many visitors who came to this event making it a great international showcase for the **Efesto brand**.

The fair was also a time of reflection and listening. We talked to many of you from all corners of the world, you gave us opinions and confirmations on our products and on our **"World of Solutions" Made in Italy**.

Some of the solutions presented during the **Prolight + Sound**:

- **ASTROtower**: new concept of tower; the perfect balance of cost, performance and handling
- **Aluminium Crowd Barriers** with exclusive **Fingers Save system**
- **FreedomFast**: compact support for led screen with self and hanging supporting- applications
- Wide range of different **aluminium clamps**
- **BETA stage** in white painted version opens new and elegant prospects of applications with its identity as a " *modular platform stage without play and deflection because this is welded!*"
- Wide range of **aluminium clamps**.

EFESTO products are designed, manufactured and packed in Italy. talian style, made of quality and reliability, imagination and originality of design, durability and safety is the connotative element of the **EFESTO** creations and solutions. **Our strength is in your confirmations!**

EFESTO warmly thanks and stronger affirms its commitment of professionalism and expertise as manufacturer offering concrete solutions and reliable.
